Verbatim Interpretation Guidelines

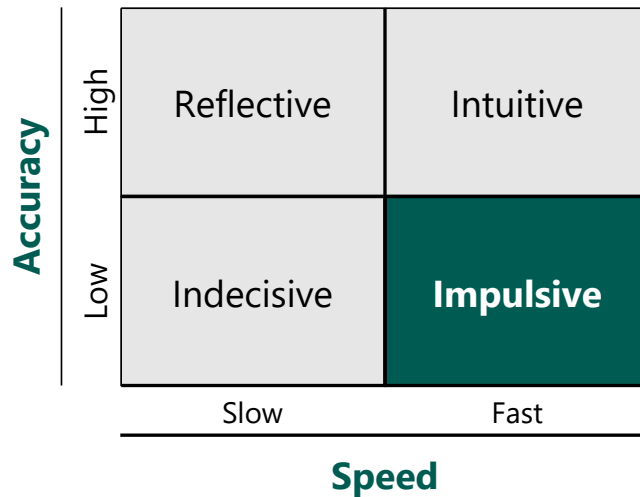

This report is based on your responses to the Verbatim test. It gives an indication of the way you understand and work with synonyms, antonyms, and analogies, as well as reason and interpret verbal information.

VERBAL REASONING

You found some elements of working with verbal information easier than others, similar to others in the norm group. Given that your verbal reasoning is as good as the general public, you would likely function well in positions that requires a moderate amount of English verbal content processing.

VERBAL INFORMATION DECISION-MAKING APPROACH

WHAT YOUR RESULTS MEAN

- You tend to make 'gut-feel', snap decisions when provided with verbal information.
- You also typically value quick decisions over careful analysis of verbal information.
