DATE COMPLETED: February 24, 2025
NORM GROUP: Undergraduate

CONFIDENTIAL REPORT

JVR PSYCHOMETRICS

Verbatim Interpretation Guidelines

This report is based on the candidate's responses to the assessment and provides the results of their Verbatim test. It gives an indication of the way they understand and work with synonyms, antonyms, and analogies, as well as reason and interpret verbal information.

VERBAL REASONING

Stanine

Below Average   **Mid Range**   **Above Average**

Sten	2	**Percentile**	3
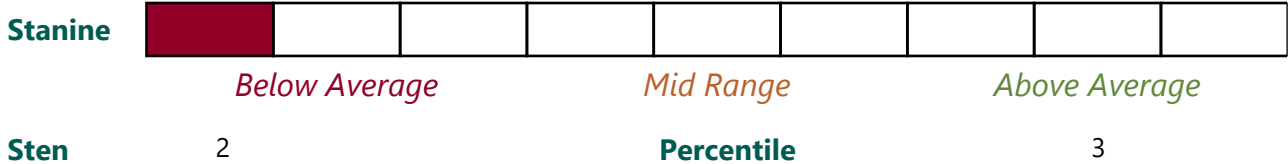

Compared to others in the norm Walil20407@kytstore.com Walil20407@kytstore.com found some elements of working with verbal information easier than others, similar to others in the norm group. Given that their verbal reasoning is within the mid-range, they would likely function well in positions that requires a moderate amount of English verbal content processing.

VERBAL INFORMATION DECISION-MAKING APPROACH

Accuracy

Reflective	Intuitive
Indecisive	**Impulsive**

Speed
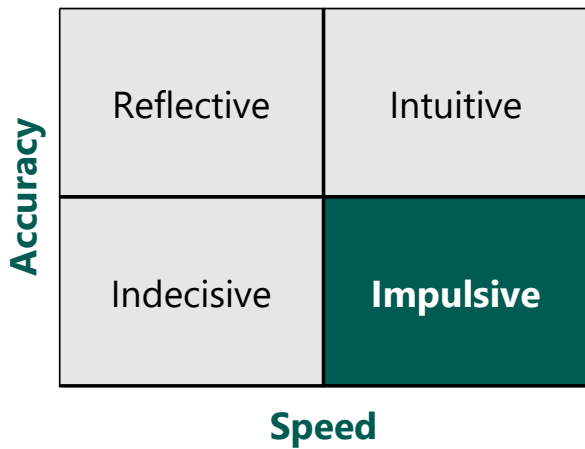

- Walil20407@kytstore.com Walil20407@kytstore.com tends to make 'gut-feel', snap decisions when provided with verbal information.

- They generally value quick decisions over careful analysis of verbal information.
