TRADE SECRET INFORMATION

Not for release under HIPAA or other data disclosure laws that exempt trade secrets from disclosure.

[4.0 / 3 / 4.0.12]

MMPI-2 VALIDITY PATTERN

Raw Score:	8	12	23	11	2	10	12	14
T Score (plotted):	61	72T	107	87	56	78	43	37
Non-Gendered T Score:	62	72T	111	87	57	80	43	37
Response %:	78	85	100	68	68	100	100	86

Cannot Say (Raw):	68
Percent True:	50
Percent False:	50
F-K (Raw):	11

	Raw Score	T Score	Resp. %
S ₁ - Beliefs in Human Goodness	4	41	93
S ₂ - Serenity	1	31	85
S ₃ - Contentment with Life	3	45	63
S ₄ - Patience/Denial of Irritability	1	35	88
S ₅ - Denial of Moral Flaws	4	58	100

PROFILE VALIDITY

This is an invalid profile because the client omitted an excessive number of items. The resulting MMPI-2 profile may not be an accurate picture of the individual's problems or personality structure. Failure to respond to a number of items is likely to artificially lower elevations on the clinical scales, resulting in an incomplete clinical picture. Although the raw scores and T scores are provided for the clinical and content scale profiles, the interpreter is cautioned that this MMPI-2 protocol could underestimate this individual's problems. The reasons for the large number of item omissions should be explored with the individual and the test readministered if his cooperation can be assured.

A number of possible reasons have been found for extensive item omission on the MMPI-2: inability to understand English; confusion or disorganization resulting from severe psychopathology; or, in some cases, accidentally skipping a column on the answer sheet. Factors related to psychopathology should also be considered when evaluating item omissions; for example, individuals who are severely depressed may not have the energy to answer all of the questions. Individuals who are extremely obsessive may tend to overintellectualize or have difficulty deciding on their answers. Some personal injury litigants choose not to respond to some items in order to avoid disclosing personal problems that could affect their case outcome.
